SHEET 1 · KEEP BESIDE YOU

Facilitator card

These six rules are the method. Everything else is paperwork.

---

1. **Give the goal, never the steps.** “Mag-book po kayo ng tricycle papuntang palengke” — not “pindutin ninyo ang pickup, tapos…”. The moment you describe the interface, you stop learning whether it explains itself.

2. **Count to ten before helping.** Silence is uncomfortable and it is where the findings are. Most facilitators rescue far too early.

3. **Never say “just” or “simply”.** Both tell a struggling participant that what they cannot do is obvious.

4. **Ask what they expected, not why they failed.** “Ano po ang inaasahan ninyong mangyari?” beats “Bakit po hindi ninyo napindot?”

5. **Record what they did, not what they say they would do.** Stated intent is close to worthless; observed behaviour is the data.

6. **Say out loud, more than once, that you are testing the app.** A participant who thinks they are being judged stops trying things.

> OPEN EVERY SESSION WITH THIS
>
> “Ang app po ang sinusubukan natin, hindi kayo. Kung may hindi kayo maintindihan, problema po iyon ng app at iyon mismo ang gusto kong malaman. Sabihin ninyo po nang malakas kung ano ang iniisip ninyo habang ginagawa.”

Write quotes, not summaries

“Hindi ko alam kung saan ko ilalagay” is evidence. “Confused about the pickup field” is your interpretation of evidence — and by the time you write the report, you will not remember which was which.

SHEET 2 · ISA BAWAT ARAW NG SESSION

Setup and cleanup

Every booking needs a second person on the other role's phone. Without the helper phones, commuter tasks 5–10 and driver tasks 6–10 cannot happen.

PETSA _____ LUGAR _____ FACILITATOR _____

Before the first session

- [ ] **Latest app on every phone you bring**, installed over mobile data. The bottom of the landing screen must read `TrikeKoTo 1.1.0 (11)` or newer.
- [ ] **Admin phone — the Android app, not the web panel** (opening an ID on the web creates a shareable link to the photo). Signed in as an administrator, email already confirmed. Open **ID review**. Remember: **Aprubahan** stays disabled until you tap **Tingnan ang ID**, and say **yes** when it asks to delete the ID photo after approving.
- [ ] **Helper driver phone** (for commuter sessions): a verified, approved test driver, switched **Online** near the venue. For commuter task 10 it goes **Offline** for three minutes.
- [ ] **Helper commuter phone** (for driver sessions): a verified test commuter, ready to book a pickup near the venue.
- [ ] **Dispatch → Tumatanggap ng booking** is on.
- [ ] **Saklaw ng serbisyo** decided for this venue: centre set where you are sitting with a radius covering your test pickups, *or* radius **0** so no warning appears. An area still pointing at Balaybay warns on every booking of the day.
- [ ] **Kasabay na pasahero** left on, and the helper commuter phone ready to book a second ride along the same road (driver task 8).
- [ ] **Dummy ID cards**, one per participant, printed **BARANGAY ID — SAMPLE** with a made-up name and a number like `UAT-0001`. The app checks the number against the ID type: a Barangay ID takes 4–20 letters and digits, a PhilSys number would have to be exactly 16 digits. Never a real ID.
- [ ] **Driver test-detail slips** filled in (Sheet 4).
- [ ] Printed consent forms, observation sheets, SUS and debrief sheets.

After each participant

- [ ] **Commuter:** in front of them, **Profile → Burahin ang account** (task 11). This deletes their name, number, photo, the dummy-ID photo, the verification and the sign-in. Their test rides stay, with name and number removed. *If it asks for a fresh sign-in and cannot finish:* admin phone → **Kasaysayan ng biyahe** → a ride of theirs → **Alisin ang pasahero** → **Alisin**.

- [ ] **Driver, after the debrief:** admin phone → the test driver's card → **Alisin** → **Alisin**. Removes profile, presence, dummy-ID photo, verification, notices and sign-in in one action. Refused while they are on a ride (*May biyahe pa — suspindihin muna*) — finish or cancel the test ride first. Test rides stay, with the test name, plate and email and no phone number.
- [ ] **End of the day:** remove the helper driver and helper commuter the same way.
- [ ] Offer to uninstall the app from their phone.

SHEET 3 · ISA BAWAT KALAHOK

Pahintulot sa Paglahok

Basahin ito nang malakas. Huwag na lang iabot — may mga kalahok na ayaw aminin na mas gusto nilang hindi na basahin.

Ginagawa ko po itong pag-aaral para sa aking thesis tungkol sa **TrikeKoTo**, isang app para sa pag-book ng tricycle.

- ☐ **Ang app po ang sinusubukan, hindi kayo.** Walang mali o tamang sagot.
- ☐ Kusang-loob po ang paglahok. Puwede kayong huminto anumang oras, at hindi ninyo kailangang magpaliwanag.
- ☐ Isusulat ko po ang mga napansin ko habang ginagamit ninyo ang app.
- ☐ Hindi po ilalagay ang inyong pangalan sa report. Gagamit po ako ng tulad ng “Driver 1” o “Pasahero 3”.
- ☐ Walang bayad sa paglahok.

Mga impormasyong hihingin ng app

- ☐ **Pasahero — number ninyo.** Magpapadala po ang app ng code sa SMS sa inyong mobile number. Libre po ang code.
- ☐ **Driver — test na detalye.** Hindi po kailangan ang inyong email, plate number o mobile number. Bibigyan ko po kayo ng test na detalye na ilalagay sa app.
- ☐ **Lokasyon.** Hihingi po ng permiso ang telepono para sa lokasyon habang ginagamit ang app. Kapag tinanggap ng driver ang isang booking, ang pasaherong iyon lang ang nakakakita ng lokasyon ng driver, hanggang matapos ang biyahe. Ang pickup na pipiliin ng pasahero ay makikita ng driver na tatanggap nito.
- ☐ **Litrato ng ID.** Hindi po magamit ang app nang walang ID. **Huwag pong gamitin ang totoong ID ninyo** — bibigyan ko po kayo ng pekeng card. Ang proseso po ang sinusubukan, hindi kung sino kayo. Kung ayaw ninyong magpadala ng litrato, kahit ng pekeng card, puwede pong huminto dito.

Pagkatapos ng session

- ☐ **Buburahin po ang account ninyo sa araw na ito** — ang pangalan, number, litrato, at ang litrato ng pekeng ID.
- ☐ **Ang mga biyahe ng pagsubok ay hindi po mabubura**, dahil record ng sistema ang mga ito. Pasahero: aalisin po ang inyong pangalan at number sa mga ito. Driver: test na detalye lang po ang nasa mga ito.

Kung kukuha ng litrato o recording

- ☐ Pumapayag akong kunan ng litrato / i-record ang boses. *(Puwedeng tanggihan ito at makilahok pa rin.)*

Naiintindihan ko po ang nasa itaas at pumapayag akong lumahok.

System Usability Scale

Bilugan po ang numero. **1 = Hindi sang-ayon · 5 = Sang-ayon.** Walang tama o maling sagot.

PARTICIPANT _____ ROLE _____ PETSA _____

#	PAHAYAG	1 2 3 4 5
1	Gusto kong gamitin nang madalas ang app na ito. I would like to use this system frequently	1 2 3 4 5
2	Masyadong kumplikado ang app para sa kailangan kong gawin. I found the system unnecessarily complex	1 2 3 4 5
3	Madaling gamitin ang app. I thought the system was easy to use	1 2 3 4 5
4	Kailangan ko ng tulong ng ibang tao para magamit ito. I would need support from a technical person	1 2 3 4 5
5	Magkakaugnay at pare-pareho ang mga bahagi ng app. The functions were well integrated	1 2 3 4 5
6	Marami akong napansing hindi magkatugma sa app. There was too much inconsistency	1 2 3 4 5
7	Mabilis matututo ang karamihan na gamitin ito. Most people would learn this very quickly	1 2 3 4 5
8	Nakakalito at nakakapagod gamitin ang app. The system was cumbersome to use	1 2 3 4 5
9	Kumpiyansa ako habang ginagamit ang app. I felt confident using the system	1 2 3 4 5
10	Marami akong kailangang matutunan bago ko ito magamit. I needed to learn a lot before I could start	1 2 3 4 5

Scoring · Odd items: `score − 1`. Even items: `5 − score`. Add all ten, then `× 2.5`.

Range 0–100. **It is not a percentage.** ~68 is average; above 80 is good.

Total adjusted: _____ × 2.5 = **SUS _____**

> **For your methodology section:** the Filipino above is a working translation, not a validated instrument — say so. Five participants find most usability problems but give no statistically meaningful score. Print `n = 5` beside every SUS figure you report.

Debrief

After the questionnaire, before deleting the account. Write their words down verbatim.

PARTICIPANT _____ ROLE _____ PETSA _____

1. “Ano po ang pinakanakakainis sa app?”

2. “Kung may isang bagay lang kayong mababago, ano po iyon?”

3. *(drivers)* “Gagamitin ninyo po ba ito sa totoong pamamasada? Bakit o bakit hindi?”

> **Question 3 is your acceptance criterion.** A driver who completed every task perfectly and then says they would not use it has told you the study’s most important result — and no task-completion table will surface it.
